

Kevin Wydra '92 | Elected Director

Kevin Wydra graduated from the University of Central Florida in 1992 with a bachelor's degree in Computer Science. After graduation, he spent the next 18 years helping build Client Profiles, a software technology leader in the legal case management field. As co-founder and CTO of the organization, his expertise spanned all areas of the research & development arm of the company, ranging from software architecture, design, development and testing of the applications. As the company grew, he was responsible for developing teams in the United States, India, and Russia as well as the technical relationship with Microsoft as a Microsoft Gold Certified Partner. The company grew to over 80 employees and was ultimately purchased by a venture capital group focused on consolidating the software development companies in the legal technology space.

Kevin brings over 25 years of technology and software development experience to the company as well as the knowledge associated with buying and selling multiple companies.

Kevin currently resides in Oviedo, Florida with his wife and two children and remains actively involved with the University of Central Florida as a member of the UCF Foundation Board of Directors, and rarely misses a UCF Football or Basketball game.
